

12V Accent VLO Beam Expanders

As we continue to bring new and innovative product solutions to market, we've hit a home run with the launch of our 12V Accent VLO Beam Expanders. This sophisticated yet straightforward optical system allows you to add additional beam spread to any Kichler Accent VLO fixture with ease and precision. The supplemental system shapes, controls, and distributes light within defined areas providing installers versatility and design flexibility.

12V Large Beam Expander
16091FRO

12V Small Beam Expander
16090FRO

Compatible With:
12V LED Large Accent
16018-16020

Compatible With:
12V LED Small Accent
16015-16017

Features & Benefits

- Easy to install by simply placing the expander optic under the cowl and against the sealed glass to widen the beam spread of an existing Accent VLO fixture.
- Practical solution without the risk of mechanical adjustment failure.
- Maintains a uniform center-to-edge light output putting light exactly where you want it.
- Nearly 90% transmission of light, aids in glare control and increases uniformity.
- Offers industry leading optical capabilities with one of the widest spreads available in a traditional 12V accent fixture at up to 90-degrees.
- The shatterproof and UV-resistant construction stands up to the elements and is backed by a 5-year warranty.

Backed by Kichler's 5-year warranty.
