

**Slide past Mid-Century, through Memphis and into Post-Century Modern with Fire Farm's new SLIDE pendant fixture!**

Sliding the powder painted metal frame up or down the white power cable changes the relationship between the positive and negative space to create your own individual composition. Their dynamic color and contrasting white acrylic globes will brighten any room and bring a touch of playful fun. Don't let the design of your rooms be boxed in! SLIDE into something unique.

SLIDE is available as single pendants with a 6 in white canopy or as a triple chandelier on a 20 in canopy. Each fixture comes suspended from a 6ft white electrical cable and is height-adjustable. Lamping is provided by a single E26, medium base, socket that will accept up to 26watt screw-in bulbs. Dimming capacity and lumen output is determined by bulb selection.
