# BIG DESIGN BOLD STYLE NUVO 2020

Nuvo's vast line of decorative fixtures include some of the hottest trending styles in lighting decor.

This year's introductions included a number of glass fixtures in seeded, texture, clear and smoked, many that showcase the decorative bulbs. Styles ranged from minimalistic and modern to new classic, and finishes as well as style elements are able to traverse family lines.

This year's NUVO launch introduced a number of oversized, attention-getting pendants in bold, trending styles.

From the burnished brass and brushed nickel of our handsome industrial pendants, and the matte black and wood orbs of the 36" urban farmhouse fixture, Augusta, to the graceful, asymmetrical Sky pendant that balances a series of open oversized bulbs; these point of attraction decorative pendants are certain to set the stage.

Big open cage pendant designs in pleasant geometric shapes, matte black and mixed material finishes are also among the designs showcased in NUVO's 2020 collection.

Over 250 new exciting styles added to our collection this year.
