From Concept to Completion

At Kichler Lighting, we've been designing with your needs in mind for more than 80 years—which means we know the importance of style and product durability. This commitment carries through with our Customizable RLM fixtures. Backed by a 5-year limited warranty, our RLM shades, arms, stems, post and mounts are all made of thick-gauge, rust-resistant aluminum to better maintain their stature.

Designed to withstand the elements, our Customizable RLM fixtures are covered in a weather-tested, UV-protected powder coat finish. This finish gives a porcelain-like sheen and ensures fade resistance, helping to keep your fixtures exactly how you envisioned them.

BUILD YOUR VISION ONLINE

With our Customizable RLM fixtures, you can design your own unique fixtures for any project through our RLM Configurator Tool on Kichler.com. With the **Online RLM Configurator**, you can select your shade of choice, along with an arm, stem or post based on your mounting location, and then top it off with an accessory to finish your look.

Beyond establishing the style of your fixture, you can also mix and match your RLM components to create a look all your own. So, an all-white fixture can now have a black arm and a red guard for a completely different appeal.

Enhance Your Lighting Design

Complete your lighting project by selecting additional lighting fixtures for the entire space on Kichler.com. Here you can find a variety of downlights, ceiling surface mount lights, vanity lights, sconces, ceiling fans, and landscape lighting to help make your project come to light.

Designing with RLM

RLM fixtures can be installed both inside and outside throughout commercial and residential locations, such as:

- Retail shopping strips and centers
- Restaurants
- Hotels
- Multi-family structures
- Single-family homes

Deep Bowl

A simple, round shape reminiscent of a deep serving bowl (upside down, of course), the RLM Deep Bowl funnels the light downward with a small amount of light escaping from the sides, resulting in a rounded beam of light.

AVAILABLE SIZES

AVAILABLE FINISHES

Warehouse

This classic RLM style can be found in farmhouse and vintage style kitchens as well as rustic-themed restaurants. Its rounded base and stepped beveled profile offer a subtle design flair that compliments an array of décors. The RLM Warehouse's shade is designed to direct light downward, delivering a slightly broader throw of light than the RLM Deep Bowl.

AVAILABLE SIZES

AVAILABLE FINISHES

Angle

Intentionally asymmetrical to offer directional light back toward a defined architectural detail such as an awning or sign.

AVAILABLE SIZES

AVAILABLE FINISHES

Shallow

The shallow shade is designed to let the light be the hero. Its broad but thin, saucer-like appearance rests on top of the light source, helping to direct the light both downward and outward for a broad throw of light.
