

ARTERIORS

2020

Nearly five decades ago, I learned how to wire my first lamp. As a young boy, 2020 seemed like a distant state, marked by flying cars & life on Mars. We had just witnessed the first moon landing, so anything seemed possible. While it might not be the futuristic vision we expected, the disruption of the past half-century has been incredible to watch.

Our industry has evolved and continues to evolve at a tremendous pace. How do we keep up? Through constant back and forth dialogue with you, our customers. We strive to understand your challenges, to identify your needs and to put forth product solutions to make your jobs easier.

Since launching traditional accessories in 1987, we have continually invested to grow and broaden our assortment. From unique lighting in early years to upholstery and case goods more recently to debuting a new collection of Essential Lighting designs, our hope is to create the right mix that exceeds your expectations, leading us into the next decade together.
